

# Guess How Much I Love You Card

This is a very simple card to make that is guaranteed to get a big smile from Mom. My daughter brought one of these home to me when she was two and I keep it in my scrapbook.

## You'll Need...

2 Sheets of Construction Paper (different colors)  
Pencil  
Glue Stick  
Scissors  
Printer

## Directions...

1. Trace each of the child's hands onto one of the sheets of construction paper. Cut out.
2. Print the template on the next two pages on the front and back of a piece of construction paper that's a different color than the hands. Fold the sheet of construction paper in half like a card with the "Guess How Much I Love You" part on the outside.
3. Glue each of the hands to the inside of the card so that they are facing out and "I Love You This Much!" is between the wrists of the hands.

**Guess  
How  
Much I  
Love  
You**

I Love  
You  
This  
Much!

Happy Mother's Day!
